Welcome!

I'm Gloria Latham, and ***my passion is helping people transform their lives with Kundalini Awakening Yoga.***

From my first introduction to the traditional Kundalini Yoga style, I knew it had the potential to change lives. But I also knew this powerful tool would be dismissed by most people as being bizarre and even cult-like. It would never reach the people who needed it most because of the dogma and guru-worship present in the teaching community. Instead of following the niche methods of any particular guru, I've dedicated my career to making this life-changing practice accessible to everyone who needs it.

And accessibility means clarity. I want to give you a detailed, step-by-step guide through the tools, techniques, and foundations of my bespoke system of personal transformation: Kundalini Awakening Yoga.

This best-selling 60-Hour Course will empower you to take back control of your life. Combining the core Kundalini principles of breathwork, physical movement, mantra and meditation with completely unique kriyas, this is the culmination of my 25+ years of intensive teaching experience.

You will learn to heal and teach healing in return.

I'm sharing this system with you because it has the power to change *everything*.

Through practicing Kundalini and working with Gloria I was able to tune into my lack of confidence and all the fears that were crippling, smothering and holding me back from my true self, and true potential.

Working with Gloria and this course has changed my life (period).

The program allows you the time to piece together what you are experiencing during a Kundalini practice mentally and physically.

The balance of mind and body as you work through the physical practice, along with focused work on uncovering yourself through lecture and journaling allows for a shift in awareness to occur.

Gloria has a way of capturing your attention.

She makes it clear and simple and gives you the tools you need for self-discovery. You can't help but begin to understand yourself more clearly.

I am forever grateful to Gloria and this Kundalini practice, as my experiences and knowledge from the program has not only allowed positive changes in my life, it has also allowed me to pursue my passion in sharing this practice with others.

Why Choose The Foundations Of Teaching Kundalini Awakening Yoga?

Like most people, you've probably heard all about the life-changing benefits of yoga—and even experienced the benefits for yourself. You may have even become a certified yoga teacher! But Kundalini Awakening Yoga is not as simple as just learning the poses and thinking up class plans. Success in yoga is like success in life: you need to embody the principles that keep you connected to the core of your being.

Recent years have seen a major surge in burnout in the teaching community. This is because the most important principle is frequently overlooked: PERSONAL TRANSFORMATION. This principle is the core of the Foundations of Teaching.

Of the thousands of students who have signed up for my teacher training over the years, most have been at some kind of crossroads. Many of my students are teachers themselves, and find that when they are the ones who need healing, they're unsure where to turn. They have discovered that Kundalini Awakening Yoga is the antidote to burnout. This system will help you harness the power of disruption, tapping into the strength within and pulling you back from the brink.

If this sounds like you, just know, you don't have to wait until you're on the edge to unlock the power within. Only when you have experienced this transformation for yourself, can you guide your students through it.

Student Testimonials

When I started the course I really had no idea of what to expect. I loved every class, every zoom meeting (although I was a very quiet participant and did not speak) where I was inspired by everyone's dreams and visions.

I feel so different and more present than ever in me.

Thank you for your support, for being there for everyone in your community. I am a yoga teacher, love teaching yoga, but taking classes myself is something I don't do. I find it difficult to separate my teacher training from my personal practice. Your course blew me away and I so looked forward to the next one.

- WILMA

I am really excited for all that is to come but at the same time already got more out of this course than I would have ever expected.

- JANA

Thank you again for the wonderful teacher training and Self-Mastery series! I learned a lot about myself over the past year. I plan to repeat the entire series and the teacher training in the coming months. This is the best gift that I gave myself this year.

- ALBENA

Hi, I'm here for the 2nd time. I did the yoga teacher course last year and it has transformed me more than I could ever have hoped for. So excited to start again.

- JESSICA

I have thoroughly enjoyed taking Gloria's teaching course for Kundalini, it has been life changing for me. It has been thoroughly eye opening and I have discovered a deeper, more profound side to my soul that was undiscovered and the healing that I am on now from this journey has been heartwarming. I truly thank you for creating an incredible course and for allowing me to be on this journey with you. I plan to continue on this path and hope to share my learnings with my community.

- MARIA

I was so fortunate to begin these classes right before the pandemic began. Kundalini yoga has been a saving grace for me these past two years. I look forward to teaching it soon!

- VANESSA

I so appreciate you offering these classes. I was hanging by a thread.

- REESA

Student Testimonials

A special thank you for creating this space and holding space for me to grow and come along.

To everyone I have never met (which is most of you) but who have been on this journey. I haven't been able to make any of the Q&A live sessions, but I have 'attended' them all and I wanted to share my gratitude to everyone who has shared so openly and honestly. Your vulnerability has helped me so much through this journey. I have laughed, cried and felt so much with all of your shares and generosity.

- JESSICA

Gloria's online training has been crucial to my development as both a student and a teacher. The thought-provoking courses have helped me learn to live intentionally. I am more connected with myself and more mindful of the world around me.

- SUZANNE

I know Gloria's method works!!! I loved the person I became after doing the work last year. I DESERVE THIS JOURNEY, YOU DESERVE THIS JOURNEY AND WE DESERVE THIS JOURNEY TOGETHER

- CLARISSA

I am very grateful to you for your teaching! And though I am still in the process of learning, your lessons give me peace and strength dealing with my life. I feel less reactive, distancing myself from a situation as if I am watching myself from above. And I feel myself physically more strong and flexible, which is kind of important for 72 years old!

My body and mind have held so much emotional pain and these practices released the patterns in body and the emotional blocks in my mind. It's been hard work and many tears and oh so worth it. Every practice I feel lighter, brighter, and stronger mentally and physically. I was meditating before this, but it wasn't releasing old patterns that were keeping me stuck. This work releases old patterns and lets me be my best self. It's part of my daily life now.

Still, experiencing the Self Mastery Series last year and the Teacher Training this spring has been an enormous enrichment for me - both personally and professionally.

I've benefited a lot from practicing Kundalini Yoga and my first steps teaching it were quite successful (in terms of excited students who loved the different approach).

- KATHARINA

Student Testimonials

I had done different styles of yoga before and I had taken Sivananda Yoga Teacher Training. Always, when I practiced Hatha Yoga, I had a lot of problems with the balance of the chakra system. Since I am in your course I feel I lot better. And this the first time, I've been able to stick to a daily practice. Since I started in February of 2020, I get up earlier in the morning for my meditation. That has never happened before. I changed so much, that I am staying on my path and if I get lost, it shows me the way back very quickly. Everything I do is clearer and there is a lot more structure in my life.

- RITA

Just wanted to take a moment to share with you how much I am loving your work. I've been meditating now since the first day of the course and haven't missed a day. I feel different. I look different. I'm acting differently - and people around me are noticing.

I LOVE THIS WORK. It's brought my soul home - Thank YOU!

- EMMA

I have been feeling so overwhelmed and burned out with life the past couple months. The first 2 days of the classes... at the end...I have felt these emotional releases. I have not felt emotional -ever- after or during any of the other classes I've done!

- J

This journey has been amazing. I've had many "aha" moments along the way and many up and down moments, but recently I feel like I've jumped a hurdle or something and I'm feeling a bit more calm. I'm not calm by nature, so this is huge and what I constantly strive for through my Yoga practice. I am so grateful for the opportunity to participate in the courses

- SOPHIA

I recommend this Course Series to any one who hasn't experienced it—it WILL change your life!!

- DAWN

Student Testimonials

Thank you so much for this course. I have noticed so many changes in the way I handle situations, my self talk and my overall outlook on life. It was a lot of work! But it was so incredibly worth it! Thank you from my entire heart!

- LEAH

I highly recommend this training to anyone who is looking to have more energy, clarity, focus and inner happiness.

- SANDRA

Your integrity and authenticity in your teachings of Kundalini yoga resonate with me more than I ever would have imagined.

The saying "when the student is ready, the teacher appears" rings so true in my experience. Divine Intervention at its best!

- CARMEN

Thank you for your dedication to everyone in the community, for your compassion and understanding and especially for sharing your passion for this amazing practice... I think I'm hooked!

- JENNY

If you are on the fence, take the leap, I am grateful for the integration of mind, heart and spirit that these teachings have nurtured within me. The discipline of inner work is so much easier with a beautiful community such as this one to journey

- WENDY

I cannot say enough good things about this series and Gloria. It has changed and is continuing to change my life daily. You'll definitely make the best decision of your life to join. This is my experience! And LOVEly Community!!

- JACKIE

This is something completely different than you may have experienced and will allow you to reconnect with yourself and discover and/or rediscover yourself and your innate strength and creativity. The community is supportive, generous and full of compassion. I cannot recommend this series enough. Life skills for a lifetime.

- MARTHA

Student Testimonials

I kept searching for a yoga practice that would speak to me and help me deal with the anxiousness, brain fog, lethargy, and roller coaster ride that my hormones had me on. I tried Gloria's classes and a few others and I knew I was hooked and had finally found something that made a difference. I'll never forget that first class... that deep breathing...the tears that I shed, the desire to learn more about this thing called "Kundalini". Those first few classes left me feeling more empty (in a good way), more still, so curious! I landed exactly where I knew I needed to be.

- BONNIE

This course took my consciousness to a new level of THRIVING.

- TRISHA

I just want to say "Thank you!" I feel like you are speaking to my soul and I have literally been searching for a way to help me heal, grow and move forward in a positive direction...not only for myself but for my family. I feel like I have gone through the "dark night of my soul" these last 4 years and I am so thankful to have found you coming out on the other side!!!

- AMY

I've done this course a few times. Always growing, always learning. It is and will be a joy to share the time we will have together on zoom calls, and on the mat. Gloria's leadership and my ongoing personal commitment to do the hard work every day have brought me through a lot. I am grateful that traumas from my past are more & more distant every day. Life is far more focused & simple. Definitely better in so many ways.

- DOUG

Through this program, the daily rituals of the sadhanas and of course with our beautiful soul Gloria, I now have gained the tools to manage my thoughts and emotions. I feel more full and balanced within. My outlook on life has a whole new meaning. I no longer walk my path as I once did as before. There is NO turning back. Everything has a much higher purpose now.

For ALL of this, I am forever so grateful. Gloria, thank you for showing up as yourself and by doing that creating space for more of us to do the same

These courses were the door to all the amazing things I have been discovering and working on despite my deep-rooted fears. I'm so grateful.

it's a BRILLIANT course! so glad I did it and was the transformation I needed to allow me to keep going forward, even in times of adversity.

- JO

I have battled through many health and life challenges and I have to say without a doubt Kundalini Awakening Yoga helped me to overcome anything and everything thrown at me. It literally saved my life. It has helped shape me into the human I knew I could be but needed help doing lol.

- JODI

I desperately needed to do this work to release stress and I felt so much better. So, thank you for your generous gift. I love the focus on mantra, breath and movement as it doesn't feel like a 'have to' exercise. I love your work.

- JULIE

This has been so much more than I ever expected and I have learned so much about myself and who I AM!! I now have the necessary tools to tackle anything that comes my way and will be able to share this with my yoga community and family. As well, I have made lifelong connections that I will truly cherish. I plan to continue the work every year because as we know, there is always something to learn. Sat Nam my friends.

- BERNICE

I am so grateful to you Gloria and your course which taught me a lot; to be patient, to be committed, to build trust in myself, to speak my truth, to beat the fear, to trust life more, to honor my body when it is in pain, to be more clear of what I want and what I do not want. Thank you thank you so much. I am also grateful for this community of wonderful people from whom I learned a lot and grew a lot..thank you all so much.I am grateful for Raquel and all others behind the scene who made the course possible. Thank you thank you so much.

Student Testimonials

Everything has improved in my life. I decided to quit a job that made me unhappy in the midst of a crisis and covid and I'm very excited and looking forward to trying new things. Also, all my relationships have improved, I have stopped being angry and I have more patience.

Everything flows much more beautifully than before. And I feel great that I have the support of the whole community and you gloria. I appreciate all you do. Your work is both spiritually and physically brilliant.

- SHIRLEY

I love the focus, community and support in these courses. Doing it as a group with all the support is motivating and inspires commitment.

- CHERYL

I continue to feel and experience the benefits of this work. I am deeply grateful to kundalini for accessing, healing and strengthening my chakras in a way unique to any other work or practice I do and have done. My heart has been healed... my heart is different now, open once more, in a new way, and stronger.

- LIZA

Kundalini found me when my life fell apart, I didn't search for it: it arrived in my inbox and I jumped in and I am staying in for the rest of my life. I have made shifts and changes that would once have been unimaginable to me. I am filled with gratitude.

-MARY

You are an inspiration and a light in our world! Your course literally transformational -what energy!

- WENDY L

Kundalini as taught by Gloria introduced me to my core, who I am, what my values are and how to empower myself to be able to respond to anything in life based on those values rather than on my feelings or my conditions. In that sense, I gained true Freedom inside from previously reactive responses, guided by emotions (often negative). I am no longer giving away my power by blaming myself and others - and each module provides a different angle to that self-growth. My "aha moments" are far too many to list here, but in contrast to such wake up calls in the past "before Kundalini", only the physical practice could crack "me" open inside to truly grow and make life changes accordingly.
